

FaxCash® Prepaid Fax Cards

If you elect to offer your patrons this “same-as-cash” method of payment, we will supply you with these cards at a discount of 30% off the suggested retail value of the 2, 3 and 6 page cards, and 20% off the 1 page card. Then, you can sell these fax cards to your patrons who wish to use cash instead of a credit card.

Our FaxCash® prepaid fax cards function the same as when using a credit card to send a fax from our Fax24 Public Fax Service. Once in possession of our fax card, the patron will simply lift the phone on the Fax24 Public Fax and be prompted to enter the card number located on the back of the card. After entering the card number, the patron will be prompted to enter their fax destination number and to press the START button at the sound of the fax tone. The following table illustrates the fax card values currently available:

<u>Fax Card Value</u>	<u>Suggested Retail</u>	<u>Your Cost</u>
1 page USA	\$1.50 per card	\$1.20 per card
2 Page USA	\$2.50 per card \$1.75 per card
3 pages USA or 1 pages International	\$3.50 per card \$6.50 per card \$2.45 per card
6 pages USA or 2 pages International \$4.55 per card

Payment terms are easy. We will send the card values you choose and bill you on a 30 day net basis. The 1, 2 and 3 page cards will sell much more than the 6 page USA/2 page International card. So, you might want to consider ordering more of these cards than the 6 page card.

When you are ready to order, please call us at 1-800-468-2748 or fax your order in using the enclosed FaxCash order form to 1-888-329-8726.
